

We are making preparations for summer projects. Several items are ordered for the projects at hand and some work has already started on pieces to be built in the shop to be taken to site later. A cover has been added on the back of the new sign at the football field scoreboard to keep out birds and look even with the new board. The quarterly filter change is finished. Plans have been submitted and approved for the project lead the way renovations in the Middle School basement. Countertops are built and ready for laminate cover which will be installed in the library at Middle School. The outdoor classroom has received some attention to help address some safety concerns. Regular work orders are addressed daily and the district is running smooth.

Thank you for Your Support,

Dwayne A. Smith
