

Transportation Department has a new trip driver “Dale Tingle” in rotation for the 2011/2012 school year.

Due to late trips coming in 2 days/48 hours before the trip goes out I have added a second rotation sheet. By doing this a driver will not lose a rotation. This new rotation is a can do bases! The driver that has X is the one taking it and the ones with * is the ones that turned it down. If any question please let me know!
